The election of ex-Governor Reswell P. Flower to the chairmanship of the Board of Trustees, to succeed the late Henry W. Sage, gives general satisfaction. While Governor of New-York, as an excellent fraction of the University, he took great interest in its affairs, and his interest has never waned. It was during his administration that the act was passed creating the State Veterinary College. Professor Samuel Gerdner Williams, having reached the age of seventy, has tendered his resignation, to take place at the close of the present gending year. The Board of Trustees has received his resignation with regret, and has elected him professor enerities of the science and art of teaching.

## PENNSYLVANIA.

Philadelphia, Nov. 7 .- A new building for the law department is to be erected immediately. The necessity for it has arisen from the increase in the number of students, and also because the old courthouse, at Sixth and Chestnut sts., which the school now occupies, must be vacated in order to make room for the restoration of Independence Hall. The trustees of the University have decided that the new structure shall stand near the existing Univer-

new structure shall stand near the existing University halls. A plot of ground at Thirty-fourth and Chesinut sia, has been purchased, and the building will be located there. It will contain tecture and quiz rooms, as well as a commolous library. A large hall for reading and study, ample for the entire student body, is contemplated. It is estimated that the new hall will cost \$200,000, which amount will be raised by private subscription among members of the bar and friends of the University. The styles favored for the architecture are such as are found in the Austin Hall at Harvard and the Boardman Hall at Cornell.

Arrangements have been completed for a course of lectures to be delivered in January on "The History of Religion." They will be given b Professor Cheyne, oriel professor of the interpreta ion of holy Scripture at Oxford and Canon of Rochester. Ingall, '99, and Sturtevant, '01, who have been laid up for a few days, are entirely recovered, and are back in their positions. Sutton, '99, who has been unable to play this season, owing to a severe injury which he received in the summer, is now out, and will probably play in the remaining games.

## HARVARD.

Cambridge, Mass., Nov 7.—This season has shown a revival of the debating interest of Harvard. Besides the large number of candidates who turned out for the Yale debate the link of societies regularly graded has been completed. The Harvard debating system is rather complex. Up to now there has been a freshman society, the juniors now there has been a freshman society, the joints interested in debating took English 30, the course effered by the faculty, and the seniors enrolled in English 6. Besides, there were the two general debating societies, the Forum and the Union, to which any members of the University, excluding freshmen, could be elected after a competitive trial. Many sophomores who were not able to secure an entire the series of the course for the cours election to the societies were left out of the debat-ing field for a year, as they could not enter the college debating courses, English 30 and English 6, open to juniors and seniors only. Realizing this, a open to juniors and seniors only. Realizing this, a call for a sopiomore debating club was issued, and forty-two men have signed the constitution. The officers elected were: President, E. C. Carter; vice-president, T. H. Wiltiney; secretary, W. M. Chadbourne; treasurer, H. S. Bowers; nember of Exscutive Committee, R. C. Hatch. The men elected to debate against Yale are now studying tacir question and debating a rair st men from the Forum and the Union. ## BRYN MAWR. Bryn Mawr, Penn., Nov. 7.-The freshmen have

reigned supreme this week, and their affairs have absorbed the interest of less important incidents. For five weeks they have been gownless and lanwhen on one evening they became the possessors of both gown and lantern. It has always been the custom at Bryn Mawr for the sophomore to help custom at Bryn Mawr for the sopnomore to neap the freshman on her way by presenting her with a lantern of some sort—sometimes a bull's-eye, sometimes a Chinese lantern, sometimes one of a more primitive shape, such as an old colonial pierced lantern. This year a particularly attractive design was obtained, and early on Tuesday evening the presentation took place and was watched with interest by the upper classes. A procession of freshmen in their newly won gowns wended its way across the campus to meet the sophomores, who were waiting, with each a bright bit of red glass, lit by a candle. After the two groups had joined forces, their way could be traced about the grounds by the moving flecks of red light and an occasional snatch of song. There is often some pleasantry between the two classes, freshman and sophomore, over the keeping of the new gowns, and on Wednesday morning the freshmen were watched with interest as they came into the chapel in their new fluery, with a conscious pride in having successfully evaded sophomore fliching. On Friday night they returned the hospitality of the sophomores, charmingly tendered them a few weeks ago, by an entertainment to which the graduates and upper classes were invited.

The freshmen football eleven, the best entering team Columbia has had in many years, played its first game against Berkeley last Friday, and won by a scare of 4 to 0. Individually the men played excellently, but they still are deficient in the knowledge of team work, and as a result, after several times making runs of fifty vards, they fumbled and lost the ball. The surprise of the game was the excellent playing of Mitchell, who was put at centre for the first time. He showed himself steady and reliable, and often blocked Berkeley's kicks. Games have been arranged with Harnard, Trinity and the freshmen of Yale, Princeton and Cornell.

The trials for membership in the Philolexian Society will be held on November 18. From advance sheets of "The Teachers' College Bulletin," it appears in a statement from the treasurer that the mortgage of \$125,000 secured by the trustees during the financial stress in 183 and 1894, to meet the requirements of contractors, is about cancelled. This comes to pass through the generosity of three friends of the college, who, in the last summer, pledged \$25,000 each, and gifts from other friends pledged in varying sums, the total of which nearly covers the whole amount of the mortgage. In the same issue of "The Bulletin," the urgent necessity is discussed for a department of physical training, with an equipped gymnasium, having model appliances and offices, where physical directors may be as thoroughly trained for their work as are teachers in other departments. It is suggested that a gymnasium and department of physical training be known by the name of a benefactor, as are the Bryson Library, Macy Manual Arris Building, and Milbank Memorial. Another "need" dwelt upon is for the open-air spaces and playgrounds.
